

Ed and Donna grew up together in a town called Wellsville, NY and got married in 1964. From 1965 to 1981, Ed was an Engineer at Lapp Insulator, which manufactured porcelain insulators. In 1981 they moved to Baltimore, MD where he became Production Manager of five departments for Locke Insulators until 1998.

In 1998 they moved to Spring Hill, FL where Ed was President of K&M Tel, which resold telecommunications equipment. He finally retired in January, 2001 and became active with the Corvette Club and our club. Donna and Ed own a red 1952 MGTD Mark II that they purchased in 1978. It was in numerous pieces and they did an entire frame-off restoration on it. What an accomplishment that must have been! They also own a red 1990 Jaguar XJS, which is a rare Collector's Rouge edition as there were less than 100 made. They also have owned a 1964 Corvette since 1968.

While Ed was managing people, Donna did an outstanding job of raising their three children; Darlene, Edward and James They are now blessed with three grandchildren from age 1 ½ to 18 years old. There is also one on the way and they are anxiously waiting for the big day. Ed and Donna enjoy traveling to the state of Washington to visit relatives and Maryland to see children and grandchildren.
