

The youngest of three boys, Ron grew up in Rotterdam Junction, NY, just outside of Schenectady. Diann grew up in Ludlow, VT, has one brother and worked in her dad's upholstery shop.

They met in 1988 when they both worked at Amsterdam Printing in Amsterdam, NY and have been courting ever since. They moved to Brooksville in 1994 and Diann opened the Wild Goose Chase Quilt and Country Store where she held classes in her hobbies of quilting, tole painting, basket weaving and bear making? Needless to say, she is just a LITTLE bit talented. Ron got bored so he went to work at a small print shop in Spring Hill where the owner was stricken with cancer. After a couple of months, Ron decided to buy the one man shop just for fun. Needless to say, Diann was having way too much fun at the quilt shop but you know how that goes...fun does not produce money. In the meantime, Ron's company was growing and he was working himself into a full time job...making money. Can you see where this is going?

She closed her non-profit company to join him in the print shop and as we all know it was the best decision for all. It has consumed their lives for the past 13 years which in turn, has made it very successful. However, all work and no play is not fun at all.

About three years ago Diann was ready to leave for New York to visit the grandchildren. Ron was reading the paper and saw a MGBGT for sale and jokingly asked "can I buy it?". Diann laughingly said "sure". When she returned from the four day trek, she discovered they were the proud owners of the 1971 MGBGT which brought them to Ralph Decker, who's name was on the registration. The rest is history. They joined the Nature Coast English Car Club and the Sun Coast Classic MG Club and have donated a lot of time and effort towards our clubs. They have also found a way to steal a few hours a month away for themselves for quality time together with friends.
