

Originally from Long Island, NY, Jeane grew up in Eastlake, OH which is located near Cleveland. Kirk is from South Bend, IN. A late bloomer, Jeane decided to attend nursing school at age 35 and graduated in 1989. After specializing in the medical surgical field, she moved to the ICU unit at Brooksville Hospital when they moved here five years ago.

Kirk was a Route Man for N & H Vending for 29 years working 70 hour weeks in Indiana. After moving here, he went to work at Wal-Mart in their yummy Bakery Department. Although he works 40 hours a week, he feels it is a part-time job after his vending career of long hours.

The proud parents of four children and six grandchildren, they also “supervise” their very vocal Quaker parrot, Oscar, who has a fierce reputation for biting. Can you imagine the look on any burglar who tries to break into their place with Oscar ready to attack? Jeane loves all kinds of crafts, whether it is beading, scrapbooking or knitting. Kirk is one happy man because she loves to cook and bake.

Last summer, Jeane played “island girl” as she camped on St. John’s Beach in the Virgin Islands with four women friends and loved every minute. They both went on their first cruise January 7<sup>th</sup> to Cozumel and Progreso in the Yucatan Peninsula.

Kirk is an absolute football fan so you know where you can find him during the season. He also owns a '94 copper Corvette which he gives a lot of attention to.

Since she lost her stepmother to breast cancer, Jeane is very involved in the Brooksville Relay for Life which raises money for all types of cancer.

Their British racing green '73 MGB has an interesting past. Don't they all? Jeane's dad rescued it from the bottom of a lake and it was just a pathetic shell. Poor baby! He painstakingly restored it and drove it for many years. After he passed away in 1985, it was given to Jeane's sister who enjoyed it for 8 years. Finally, in 2003 Jeane got possession of this little survivor and now it is absolutely thriving in our Florida sunshine.
