

George Rosati and his wife Judy are recent additions to our British Car membership list. George and Judy moved from Jericho, Long Island, New York in 05. While in New York George spent his working hours operating 3 wholesale auto parts businesses and was the president of a buying group for auto distributors.

Although his cars are not exactly "Little British Cars" George drives a drop-top XJS and also owns an XJ6 Jaguar.

However, George said his dream car is a Ferrari, any Ferrari. Any Ferrari other than a 365 Daytona. Do you remember Crockett and Tubs from the 80's program Miami Vice? They originally took care of Miami while driving a FAUX 365 Daytona. Well George is also the owner of one of these "Corrari Kit Cars"

mounted on an old C-3 Corvette frame. George's has been out-of-service for years waiting for a tech savey

savior. However, all he could find was Terry( I can fix anything) Mathis. Terry has been working to resurrect

the old Vette-Ferrari wanna-be. But during a recent attempt to fire-it-up all it could muster was a few solenoid

clicks and a weak starter grunt, the work continues. So while Terry wrenches on the Corrari Kit Car George is

enjoying golf and looking forward to watching football. George also indicated he looks forward to car shows, rallies and races.

So when you spot a clean copper colored XJS say hi to George Rosati.
